

Srishti Yadav

LinkedIn id: <https://www.linkedin.com/in/srishti-yadav-301176306>

OBJECTIVE

Backend focused B.tech computer science student with strong problem solving skills and hands on experience in JavaScript , java , SQL and CRUD based application , seeking an entry level software development role.

EDUCATION

Year	Degree/Exam	Institute	CGPA/marks
2023-2027	B.tech in computer science	Dronacharya group of institutions	8.16
2023	12th C.B.S.E	Sanskar Global School	75%
2021	10th C.B.S.E	Sanskar Global School	94.56%

TECHNICAL SKILLS

- **Languages** : java , C++, JavaScript
- **Backend** : Node.js , RestAPI
- **Database** : MySQL , MongoDB
- **Core CS** : OOPs , SQL , DBMS

PROJECT

Bike Servicing System

- Designed and developed a system to automate bike service booking and management.
- Features include customer registration, bike details management , service scheduling and service status update.
- Reduced manual efforts by maintaining service records in a structured database.
- Applied concept of CRUD operation, data validation and modular programming.

ACHIEVEMENTS

Research & publications

- Authored and presented a research paper selected at **ICOTET**(International Conference on Trend in Engineering & Technology).
- Gained experience in research writing, paper submission process, technical presentation and received official certificate.

Certification :

- IIT Delhi- virtual labs workshop (certified participant) ,
- Participant of Generative AI (by IBM skillbuild).
